## Projects

### Plant Product Website

Designed and developed a responsive, animated product website with modern UI/UX features including parallax scrolling and dark/light mode toggle.

### IOS Product Application

Built an iOS application using Swift and Xcode for showcasing and marketing an organic product, implementing smooth UI animations and Apple-inspired design principles.

### ERP System UML Design

Designed comprehensive UML diagrams (Use Case, Class, Sequence, Component, Activity) for a College ERP system as part of academic coursework.
